Makeup Class-Costume Technology-Costume Crafts

Welcome to the instructional showcase within my portfolio, a testament to the educational journey embarked upon by my students in the world of theatrical arts. This section is an example of the comprehensive curriculum I oversee, featuring a meticulously curated array of student work from courses such as Stage Makeup, Costume Craft, Costume Construction and Technology, Costume Design, and Costume History. Each artifact showcased here reflects the dedication, skill, and scholarly depth cultivated through our rigorous academic efforts.

Costume Crafts

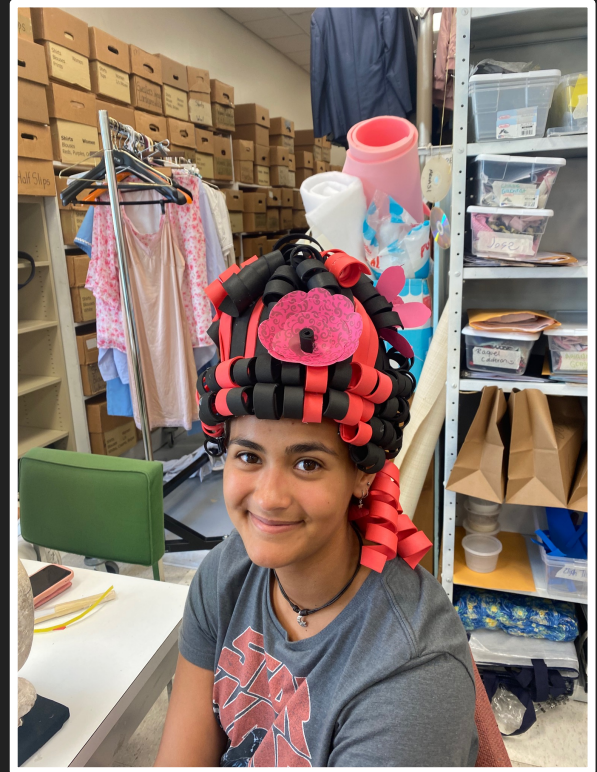

Welcome to the Costume Crafts showcase, where creativity knows no bounds! I'm thrilled to share the impressive work crafted by students in our class. Each creation is a testament to skill and imagination, from the intricacies of mask-making to the ethereal beauty of wings and the whimsy of foam wigs. Alongside these, we delve into the art of tie-dye and screen printing, adding vibrant layers to our repertoire.

Mask making

Foam Wigs

Welcome to the Costume Construction and Technology showcase, where innovation meets tradition! I'm excited to present the remarkable projects crafted by students in our class. From mastering the fundamentals of wardrobe management to sharpening their hand-sewing techniques and advancing to machine sewing, our students embark on a journey of skill development and creativity. Explore with us as we delve into the construction of garment accessories, such as tote bags and beret hats, alongside whimsical projects like pincushions. Culminating in creating a unique puppet, our final project embodies the culmination of our students' dedication and ingenuity in costume construction and technology.
